

Maintenance Myths

Introduction

Copyrighted

There are many maintenance myths. These are common expressions that people take as true but when they are examined are found to only be half-truths or are completely false.

This section of the Website will explore and explode these myths so that you aren't fooled by them.

Besides maintenance myths there are many spiritual myths that people believe but are not true.

For example, most people think that if they do more good works than bad works God will let them into heaven. All religions are based upon this damning myth! All, that is, but Bible believing Christianity! Many trust their happiness and eternal salvation on what they do! If that were true, there would have been no reason for Jesus to bear our sins on the cross! The truth is that your salvation is not based upon what you do but on who you trust. Jesus paid for your sins and gives salvation as a free gift to those that trust His death on the cross and ask Him to save them!

The way to explode myths is to compare them to the truth. Just because something sounds good, that doesn't mean that it is good.

Spiritual myths are busted by believing what the Bible says about them!

These are the myths that this section will explore:

1. “The Squeaky wheel gets the grease.”
2. “Get a bigger hammer.” Banging on it!
3. WD-40 or Vegetable oil to stop a hinge from squeaking.
4. The problem is the smoke detector, rooster, or alarm clock!
